FLAT FACE O-RING CAP & PLUG ASSORTMENT KIT

The Flat Face O-Ring Cap and Plug Assortment Kit is a reliable and comprehensive solution for protecting flat face hydraulic fittings from damage, debris, and leaks. This kit includes a wide range of durable caps and plugs, designed to securely seal flat face O-ring fittings of various sizes. Perfect for maintenance crews, repair shops, and mobile technicians, the assortment is neatly organized for easy identification and quick access. Engineered for durability and a secure fit, this kit ensures optimal hydraulic system performance and protection during service, transport, or storage.
